

PERFORMANCE SPECIFICATION

Digital Point Positioning Data Base (DPPDB)

This amendment forms part of MIL-PRF-89034A, dated 12 February 2013.

PAGE 33

Change paragraph 4.3.2 to read: (U) NITFS compliance testing. DPPDBs are certified to be NITFS 2.0 compliant. The compliance testing is in accordance with National Imagery Transmission Format Standard (NITFS) Standards Compliance and Interoperability Test and Evaluation Program (N-0105-98). **Certification is provided by NGA / Office of Geomatics / Precise Imagery Division or subsequent organization. Second or third party testing centers to be leveraged as necessary.** Systems that make use of DPPDB products should also establish NITFS compliance certification.
